

NATIONSLINK

NVS is proud to offer NATIONSLINK!

A Desktop Appraisal with Inspection

NATIONSLINK provides lenders with an ideal valuation solution for home equity loans, portfolio analysis or pre-foreclosure scenarios, where a full appraisal is not required by law.

NATIONSLINK meets regulatory requirements for low risk independent valuation analysis that is more accurate and meaningful than AVMs or BPOs.

A proprietary product which combines either an exterior only or interior/ exterior inspection with a USPAP compliant Desktop Appraisal Report.

- Inexpensive solution to the high expense and long delays for a traditional field appraisal.
- Reduces valuation risk with an appraiser's value opinion supported by a physical inspection.
- Geographic competence with real time local MLS data.
